

**REMARKS**

The priority action included a restriction between claims 1-19 and 20-23.

Initially, it should be noted that there are 28 claims. By this Amendment, applicant has amended claim 20 to depend from claim 1. This effectively eliminates the restriction requirement as claim 20 is now directed to the method of archiving of claim 1 and further characterizing the method as regenerating layers corresponding to color separations for a printing process. As such, the restriction requirement is moot.

An early and favorable action on the merits is requested.

Respectfully submitted,

Date: May 9, 2007
